# MISSION: HERO FACTORY HUNT

The heroes of Hero Factory are getting their headquarters in order. You can help. Look at the list of Hero Factory words. Each word belongs somewhere in the grid. Put the words in their correct spaces. We've already done one for you.

# HERO FACTORY™

Nex  
Hero  
Furno  
Galaxy  
Quaza Chamber

Evo  
Surge  
~~Breez~~  
Stormer

# WINNER TAKES ALL!

LEGO STAR WARS

Not fair! Your speeder is bigger than ours!

Bigger is better, mate!  
We're tied now, I-I.

Are you sure  
you know how to shoot?  
Now we are winning,  
2-1.

You are just  
really, really lucky!  
We could still win!

The clone troopers win the relay race, making the score 2-2. Now it all comes down to the tug of war.

The clone  
troopers win!

WE DID IT!

You won this time,  
but next time – Tic Tac Toe.  
No one beats us at that!

Anytime,  
anywhere – we'll  
be waiting!

Pull  
harder!

How will I explain  
this? Or get all this mud  
off my armor?

**The End...  
For Now.**

# BUILD A SPACE STATION!

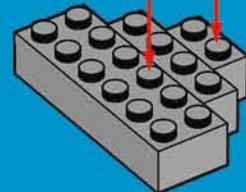

Here's a new space station to go into orbit around the Earth! You can build it using pieces from your LEGO collection. Don't worry if the colors don't match – use whatever colors you like!

When you are done building, you can take it apart and build something else, or build space vehicles to visit your space station. It's up to you!

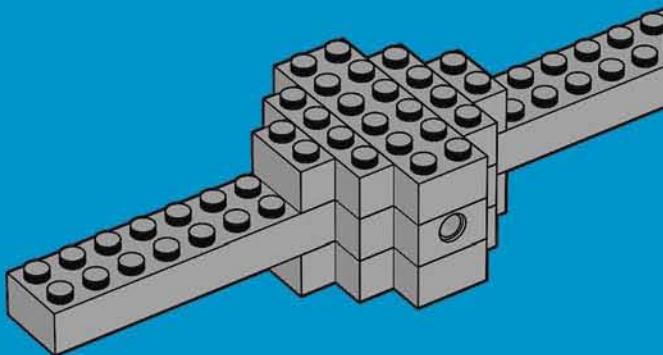

## BUILDER TIP

When building something that is real, like a space station, a baseball stadium, or even a bird like on the next page, it's a good idea to look at any pictures you can find of the thing you want to create. This makes it easier for you to make a model, because you will have a picture of what it really looks like!

**2****3****5.1****5.2****5.3****6****FINAL****BUILDER TIP**

Even though this model is small, designer Mark Roe wanted to make it look like it was a really big space station. So he built a tiny space shuttle to go along with it. You know a space shuttle is very big in real life, so by making it so small here, Mark makes the space station look much bigger.

# BUILD A BIRD!

This feathered friend looks all ready to fly! This is just one of many kinds of birds you can build with pieces from your LEGO collection. Remember, you don't have to use the same colors that are in this model – you can use whatever colors you like!

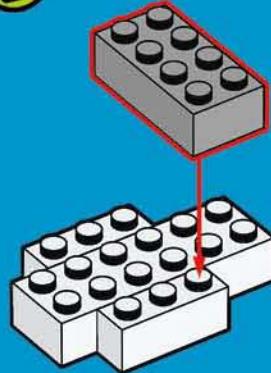

After you have built this bird, you can take the model apart and see what other things you can build. What will you make?

## BUILDING TIPS

Designer Mark Roe used lots of different colors in this model. Using pieces in many different colors makes your model more fun to look at.

Some pieces work great for certain parts of a model, just because of how they look. See the piece used to make the bird's feet? What else do you think you could use that piece for in a model?

# SPRING ON THE BEACH!

**I**t's a beautiful, warm day on the beach. All the minifigures are having fun. But something isn't right with this beach. Can you find 10 things that are wrong in this picture?
